

***Basics of Great Long-Term Team Culture***

What are three basic elements of a great long-term team culture?

---

---

---

*“A collection of talented individuals without personal discipline will ultimately and inevitably fail. Character triumphs over talent.”* How would you use this idea to assemble a team? Process wise: How specifically would you identify the people you want?

---

---

---

*“Leaders create leaders.”* What does this idea mean to you? How could you apply this idea as a practical matter? Give a specific example.
